OF ONIONS. By George L. Trail, Lexington, Mo HISTORY OF THE CULTURE.

Having for the last twenty or thirty years, devoted the greater portion of my time and attention to the culture of vegetables, and meeting with success in "the culture of onlons," I have ventured to give expression to my views on the sulj ct. information derived from my own practical experience. The onion being considered one of the most healthy and almost an indispiles, many of them to be seen at this pensable vegetable, you will rarely find a garden in which this vegetable is not "The care of the great roids was ultivated, each family endeavoring to ratse enough for their own individual use; the various gardeners, raising them to meet the market demands some are quite successful, others are not; but in self justification to our

destruction, they must, without contook no care to enforce the admirable roads scattered over Europe, bear evidence to their primitive grandeur, and have drawn forth the culogium from a discriminating traveler, usually not too profuse in his panegyric, tha "the roads of the Incas were among the most useful and stupendous work

THE SCEPTER DEPARTING.

Your future husband seems very sorted to strategy.

THE BAD BOY TRIES HIS HAND AT REVISING THE BIBLE.

"You see," said the bad boy, "pa has been reading out of an old back number bible, and ma and me argued with him about getting a new revised edition. We told him that the old one was all out of style and that all the neighbors had the newest cut in bibles, with dolman sleeves, and gathered in the back, and they put on tyle over us, and we could not hold up our heads, in society when it was known that we were wearing the old last year's bible. Pa kicked sgainst had as much right to change things in some mottoes and patent medicine advertisements in it after the verses. Pa never reads a whole chapter, but eads a verse or two and skips around. Harvesting takes place from the mid-dle to the last of August. The proper pa got the new bible and started to read the ten commandments and some was: "Verily I say unto you, try St

Jacob's oil for rheumatism.' looked over his spects at ma, and then ooked at me, but I had my face covered with my hands, sort of pious. Pa said he did not think it was right o put advertisements in the bible, but ma said she didn't know as it was any worse than have a patent mediine notice next to Beecher's sermon n the religious paper. Pa sighed suct turned over a few leaves and rend : "Thou shalt not covet thy neighbor's wile, nor his ox, if you love me as 1 love von, no knife can out our love in two." That last part was a motto that housing. Heaping them gives them an proved the old commandment very opportunity to sweat, while protecting much. Then pa turned and read : "Take a little wine for the somach's sake and keep a bottle of Reed's Giltedge Tonic on your sideboard, and von can defy malaria and chilis and fever." Pa was hot. He looked at it sgain, and noticed that the tonic comnandment was on yellow paper, and the corner turned up, and pa took hold of it, and the paste that I stuck it on with was not good and it come off, and when I saw pa lay down the bible, and put his spectacles in the case, and reach for the fire poker, I knew he was not going to pray, and I looked out the window and yelled dog fight, and I lit out, and pa tollowed s'id around on his car, and the special providence of sleet on the sidewalk saved me. Say, do you believe in special providences? What was the use of that elect on the sidowalk, if it was not to save sluner. P"

INTERESTING FACTS ABOUT HAIR-

[Dr. Wilder in the Medical Tribune.] Whether the hair should be cut I ever could quite satisfy myselt. As a physiological practice, I seriously doubt the propriety. Every cutting is a wounding, and there is some sort of bleeding in conseq ence, and waste of vital force. I think it will be found that long lived persons most frequently

The cutting of the hair stimulates to a new growth to supply the waste. Thus the energy required to maintain make good the wanton destruction. It is said. I know, that at tality at the extremity, and spints or ket, are disposed of in bunches. To "brooms up." Whether this would be prepare for shipment to distant parts the case it the hair should never be cut bright, plump sppcarance. It for a fluid exudes, and forms a seab or cica-distant market, barrels will be found trix at each wounded extremity, indica-

tight, that there may be no shaking. Women and priests have generally and head strongly. Packed in this way and perfectly dry, they will go thou- why this distinction was made. The ancient priest was very often unsexed Seventy-five cents to one dollar is the or devoted to a vow of celibacy, but I usual price at gathering time. They cannot surmise whether that had anyhair long in Imitation of Samson, and il e golden Sun-God Mithias. I suspect from this that the first men shorn were slaves and laborers; the freemen wore their hair unmutilated, as the crown of this be correct, the new era of freedom, when it ever shall dawn, will be charac-terised by men unshorn as well as wom-
